EDUCATION

K.P.B Hinduja College, Mumbai University

2022 – 2025

Bachelors of Science (Information Technology) - CGPA: 8.6

Mumbai, Maharashtra

EXPERIENCE

Jr. Software Developer at Scalix

February 2026 – Present

Role - Software Developer

Remote

- Built and enhanced a client's product showcase platform by developing multiple core features and interactive sections for the main product experience.
- Worked across the full development workflow using **Next.js**, **Frappe**, DevOps practices, and **GitHub** for version control and collaboration.

Intern at Hostvize

September 2025 – December 2025

Role - Frontend Developer

Remote

- Developed two production-ready frontends (Host and Guest) for a hotel booking platform using **Next.js** and **TypeScript**.
- Converted Figma designs into responsive UI using **Tailwind CSS** and integrated backend APIs with full CRUD functionality.
- Improved code structure, validation, and performance; implemented multilingual support using **i18n internationalization**.

PROJECTS

Furniture E-commerce App | React.js, Tailwind CSS, Vite

- **Live Demo:** [Live Website](#) **GitHub:** [Repo](#)
- Built a dynamic furniture e-commerce app using **React.js + TypeScript**; implemented global state with **Redux** for cart and filters, client-side filtering (category, color, price), and React Router for navigation. Configured Vite builds and automated deployments (Vercel) as part of CI/CD; added basic unit tests with **Jest**.
- **Skills:** React.js, Redux, Tailwind CSS, Vite, React Router, ESLint, Vercel

Modern Interactive Landing Pages | HTML, CSS, JavaScript, GSAP

- **Live Demo:** [↗ Live Website](#) **GitHub:** [↗ Repo](#)
- Cloned and deployed **4 creative landing pages** (Apple Vision Pro, Microsoft, Magma, etc.) with pixel-perfect design, improving animation smoothness by **20%** using GSAP optimization.
- **Skills:** Responsive Design, UI/UX Design, Dynamic Animations

The API Hub | HTML, CSS, JavaScript, REST APIs

- **Live Demo:** [Live Website](#) **GitHub:** [Repo](#)
- Built a responsive frontend showcasing **6+ API projects**, optimizing API calls by **15%** with modular architecture and robust error handling.
- **Skills:** REST APIs, Async JavaScript, User Experience Design, Error Handling, Deployment

The Game Spectrum | HTML, CSS, JavaScript

- **Live Demo:** [Live Website](#) **GitHub:** [Repo](#)
- Built a multi-game platform with **4 browser games**, using modular architecture for scalability and DOM manipulation for efficient game logic.
- **Skills:** Responsive Design, User Interface Design, Performance Testing

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL

Technologies / Frameworks: HTML5, CSS3, Tailwind CSS, Bootstrap, GSAP, Three.js, WebGL, React.js, Next.js, Redux, React Router

Developer Tools: Vite, npm, VS Code, Git, GitHub, Vercel, Netlify, AI Tools

CERTIFICATIONS

- Career Essentials in GitHub Professional Certificate - **GitHub and LinkedIn**
- Search Engine Optimization Professional Certificate - **Moz and LinkedIn**

EXTRACURRICULAR

- **Media Head – MVM Committee**
- Directed media operations, boosting social media reach and engagement by leading a team of 10+ members. Produced creative content, managed event coverage, and executed promotional campaigns that attracted sponsors and improved brand visibility.
- **Soft Skills:** Leadership, Team Collaboration, Communication, Time Management, Strategic Planning, Problem Solving
